**AREA TRAINING CONSULTANT/COACH ATTENDS PROFESSIONAL  
CONFERENCE**

Tammy Potosky of Winter Springs recently attended Inscape Publishing's annual conference in Orlando, Florida to invest in her professional development. Tammy was among an exclusive group of 215 Inscape Distributors to attend the business building conference for independent consultants in the training and development market.

The conference focused on several key business topics including marketing, branding, technology and training. Also featured at the conference was Inscape's newest product line, *Everything DiSC® Application Library*, which builds off of the success of the *Everything DiSC Facilitation System* to provide focused feedback in a variety of applications. Tammy is among the first Inscape Distributors to bring these contemporary, innovative solutions to her clients. Julie Straw, Inscape Vice President, commented, "Staying current on applications and solutions is critical in the training and development market. I applaud Tammy for taking the time to invest in her business development so she can provide high quality solutions to her clients."

Inscape Publishing is the pioneer and leading provider of assessment-driven classroom learning solutions that develop critical interpersonal business skills such as communication, teambuilding, time management, conflict management, sales and leadership. Inscape's solution-focused products are used worldwide in thousands of organizations of all sizes and industries.

Inscape sells through a global network of more than 2,000 independent consultants. These consultants incorporate Inscape's products into comprehensive training and development programs that they provide to their clients.

TLP Learning Solutions provides training and development services ranging from facilitating workshops on communication, customer service, and team-building to establishing e-learning platforms for clients. Additional services include LMS implementation, curricula development, course selection/recommendation, user documentation, job aids and project management.
